

Who we are ?

Carriastic is trying to solve the Unemployment problem initially in Bangladesh and later on globally. We are basically a job placement platform for graduates and understudies, especially, focusing on their careers for ensuring job placement in the competitive job market.

Our Mission

Our mission is to ensure qualified candidates for our stakeholders and make the candidates eligible to start their very first career through various skill development programs. Our main focus is to create a platform that can create a bridge among the concerns and applicants.

Our Vision

Our vision is to create a sustainable qualified human resource to reduce the unemployment problem nationally and globally. Though initially we are trying to reduce the unemployment problem in Bangladesh, we will expand our network to an international level. We will ensure local employment, global employment, and remote jobs as well. Moreover, our organization will create a positive effect on the global or local environment, community, society, or economy.

Why us?

- Carriastic is trying to solve the Unemployment problem initial in Bangladesh and later on globally.
- Carriastic will become the bridge between job seekers and employee seekers(vendors). Job seekers will get their desired job and vendors will be ensured qualified employees without hassle.
- As a result, productivity of vendors will be increased and unemployment problem will be slightly reduced.
- Initially we will collect jobs seekers by CV collection. We are collecting CV/resumes by various way like collecting from our own CV dropping platform, social media ads, in person communication etc.
- Later on, we will conduct career development program in universities and collect proper candidates by running a 4-month training program.
- These trained qualified candidates will be referred to the vendors.
